Q/A Keybinder Description: This is an extension that aims to help Q/A players, that include items into their inventory, with an auto keybinding that supports Q/A for many items. Only Q/A that can be auto bound to a key are included. Q/A have been ranked and balanced such that a person may just have to press the key (keybind) they want. \*\*\* This extension works in all maps, even when the map designer has assigned a custom keybind to the items \*\*\* This is an extension that aims to help Q/A players, that include items into their inventory, with an auto keybinding that supports Q/A for many items

2003-2004 Denis Shurashov New  
in version 5.0 Support for all  
fonts installed on the system.

New appearance settings  
window. General improvements  
and bugfixes. Last version  
downloads. Changelog: Version  
5.1 - 2003-04-24

----- \*Added this  
paragraph to the end of the  
readme.txt file. All this changes  
are new in this version, which  
introduced a lot of new features.  
Since version 5.1, you can copy  
any element of any font installed  
on your computer to clipboard. It  
is not so difficult as it seems. For  
copy a symbol, leftclick on it and  
press "+" or "-" on your numeric  
pad (not on your keyboard). For  
copy a whole font, leftclick on  
the grid, press "+" or "-" on your  
numeric pad and choose the font  
from the list of installed fonts.

More features for all fonts:

\*Focused font can be changed by  
rightclick on the grid, which is  
selected. \*Other font can be  
selected using the menu, which

---

is attached to the grid when it is focused. \*You can navigate to any symbol of any font, also to symbol pages like uppercase or lowercase symbols. \*You can preview the selected element using "+" and "-" keys on the numeric pad. \*You can copy the selected element to the clipboard using "+" or "-" keys on the numeric pad. \*You can copy the selected character of any font to the clipboard using "+" or "-" keys on the numeric pad and use it, when the focus is on a character combobox. You can set all colors and sizes of the selected font in the settings window. These values are saved for the next time. This version is compatible with all minor versions of Windows 3.11 to XP. Another improvements is copy and paste of files, which you can get from urls (eg. from internet). Also, its appearance is quite easy. You can change all colors and sizes of the font via the settings page. In this version, we

---

received a lot of suggestions from our users. We tried to solve them all and here are the first results: \*You can set any key combination to make the character navigation. b7e8fdf5c8
