Resting-state Functional Connectivity of the Default Mode Network Between Classical Language Regions in the Left and Right Hemispheres. Although the default mode network (DMN) is commonly viewed as a neural substrate of self-related processing, it is associated with a range of cognitive functions. One theory has suggested that the DMN represents the basis for a default consciousness, which is independent of cognition. However, while the DMN has been shown to be asymmetric, no study has compared DMN resting-state functional connectivity (rsFC) between the left and right hemispheres in the same group of participants. The goal of this study is to examine whether the asymmetry in the DMN between the left and right hemispheres is consistent, and whether it is associated with an identifiable spatial pattern. We compared right-to-left and

Game Description:

Pony Island is a surreal, interactive musical experience in which objects in the world can be interacted with using a mix of a song that you've memorised and the general game interface. While playing games and listening to music go hand in hand, Play the same song while dancing the rhythm or while flying around the world.

In Pony Island, all of the elements of the game are generated via music and sound, such as all objects and items, the various stories and the sound effects that you hear while playing.

Unlock new areas and worlds as you read the game's two stories, and travel to other areas for friendly contests with your music.

In each world, you'll need to collect orbs of light and visit various places by way of activities. You then can use them to enter the Dungeon, a monster-filled labyrinth. In this safe haven, you'll

The ghostly towns of Pahelika return to its haunting glory with five new puzzles, but only three allow you to move items from room to room.2/5 Game Chronicles The puzzles are neither difficult nor exciting, and the characters are not very interesting.1/5 Tale of Tales The characters are well developed and the plot is engrossing. It feels more like an adventure game, because all of the puzzles and exploration happen simultaneously.6/5 Adventure Game Today The game is a beautiful tribute to Edgar Allan Poe's works, and the puzzles are challenging.5/5 Adventure Site in Arcade The game is very well executed and the puzzles are really challenging.4/5 www.arcadestation.com "Pahelika: Revelations" is a puzzle-adventure game worth playing through once.4/5 www.adventuresite.org The game is an impressively realized tribute to Poe's works.4/5 www.gamer.com "Pahelika: Revelations" is easy to pick up and difficult to put down.3/5 www.sparklevision.net The characters are not animated very well and the story is long and tiresome.2/5 www.bit-tech.net "Pahelika: Revelations" is a good looking demo but has some gaping holes in its logic, making it frustrating.1/5 www.pocketgamer.co.uk The game is a fun, pretty adventure game, but it lacks depth.2/5 www.eurogamer.net "Pahelika: Revelations" relies too much on the visual style, and it doesn't serve the story well.1/5 www.tro.gr "Pahelika: Revelations" is a typical "Storyteller Game" that may be frustrating, depending on your level.5/5 www.bungie.net The game's animations, graphics, and music are very good. The feel of the game is realistic and polished.4/5 www.classicgaming.com Pahelika: Revelations is a collection of puzzles that's interesting.3/5 www.gizmodo.com "Pahelika: Revelations" is a good

adventure game. It's too short to satisfy, though.2/5 www.gamershero.com Pahelika: Revelations has several interesting pieces of artwork. But they're impossible to look at for long without missing the action.0/5 www

proposed group-specific whole-body hyperthermia alone and combined with taxane treatment in hormone-receptor-positive advanced breast cancer: a study by the randomized multicenter Hyper-Energetics Group in Japan. The Hyperthermia Group is a randomized multicenter study designed to evaluate the efficacy, tolerance, and survival benefits associated with whole-body hyperthermia alone and combined with taxane treatment in advanced, hormone-receptor-positive breast cancer. From January 1998 to October 1999, 348 patients were registered at 45 hospitals and received either 45 mg/m² of paclitaxel alone or with whole-body hyperthermia (WBHT) at 43 degrees C for 1 h and then at 41 degrees C for 30 min. Chemotherapy was repeated weekly for six consecutive weeks. Survival of the patients was followed for 5 years. The overall response rates were 51.2 and 69.2
